Grad

- Brooklyn Manteyne -

Plans for the future - I will be attending the University of Regina in the fall with hopes to obtain my Bachelor of Social Work.

What was your favourite grade 12 moment? My favourite grade 12 moment would be the first day of grade 12 being able to sit in the back of the gym at the assembly. It felt like I had made it and it made me realize this is it. Though it does seem very simple it is my favourite moment because when you're in grade one and you look at the back of the gym and you see the big kids sitting at the back wall, you think to yourself "I'll never be that big" or "I can't wait to sit back there" but one day it comes very fast and you get to sit at the back of the wall, but you don't feel very big.

What is on your bucket list for the future? My bucket list is simple, I want to travel the world and make memories with new friends and loved ones. I want to continue to play volleyball at an even higher level than I did this year and maybe coach someday. I want to have an acreage with a family doing a job I love, which would be helping people every single day.

What subject/teacher will you miss the most? I will miss Mrs. Welburn because she was always someone you could talk to so effortlessly, you could say whatever you wanted without feeling judged. I'm sorry, but I won't miss math, but I will miss the gossip and laughs I had in her class. I will also miss Mrs. Gagne, who always had my back and supported me all the time. She was the first teacher to hear about me getting accepted to school and making it on the Moose Jaw and Swift current volleyball teams. She has become a friend rather than a teacher.

- Kipp Mielke -

Plans for the future - I plan on working for awhile until I'm 18 and then pursuing post secondary school, probably in the trades.

What is on your bucket list for the future? I'd like to start and finish post secondary, if we're talking further in the future I'd like to have an acreage out in the hills.

What would your dream job be in life? Probably an astronaut. Realistically I don't think I'll be going to space anytime soon.

- Kylin Elder -

Plans for the future - Attending the U of S for my Bachelors of Education

You have a plane ticket to anywhere in the world, where do you go and why? Vegas for my 21st birthday

What subject/teacher will you miss the most? Gym & Mrs. Gagne

What was your favorite grade 12 moment? Biology with the boys

What will you miss about Coronach? Probably hanging out with friends on weekends

What is the best thing about Coronach school? Seeing my friends

- Payden Thurlow -

Plans for the future - Work for a bit and then come back and farm

What was your favorite grade 12 moment? Going to Hoopla

What will you miss about Coronach? I will miss all the late nights with my friends

What would your dream job be in life? My dream job would be a heavy duty mechanic

- Eliza Anderson -

Plans for the future - I have been accepted into Lakeland Collage in Vermillion, Alberta to study Agriculture Sustainability

You have a plane ticket to anywhere in the world, where do you go and why? Ireland because I want to see what the Irish life is all about!

What will you miss about Coronach? Probably the parties every weekend!

What would your dream job be in life? Being a rancher with a lot of land and cattle

Congratulations

2022

Grad

- McKinna Cairns -

Plans for the future - I'm going to get my diploma as an LPN

You have a plane ticket to anywhere in the world, where do you go? Hawaii

What will you miss about Coronach? Going out every weekend

What teacher will you miss the most? Mrs. Gagne

- Sommer Foley -

Plans for the future - I have been accepted into the Animal Bioscience program at the U of S

You have a plane ticket to anywhere in the world, where do you go? Somewhere to either a Humanitarian mission animal rescue type thing

What will you miss about Coronach? Walking down the street and knowing everyone you see

What was your favorite Grade 12 moment? Being able to actually have the senior year experience especially because of the last couple of years people got robbed of it because of covid.. Being able to go mask free was pretty cool too.

What is on your bucket list for your future? To visit all of the Canadian provinces and territories.

- Laura Kerba -

What are your plans for the future? In the fall I will be attending the University of Saskatchewan toxicology. I hope to one day go to medical school and go into pathology. I have always been interested in science and pathology, but especially forensic pathology.

What is on your bucket list for the future? I have many things on my bucket list, but mostly I want to travel. There are countless countries and landmarks I want to see, and hopefully I will be able to sometime in the future.

You have a plane ticket to anywhere in the world, where would you go and why? I would go to the isle of skye in Scotland. It had beautiful landscapes, and fossilized dinosaur footprints. I think this would be a beautiful place to visit and a once in a lifetime opportunity.

What will you miss about Coronach? I will miss knowing everyone on the street and feeling comfortable talking to anyone. It is nice knowing that if I needed help I could ask almost anyone, and not think twice about it. I will also miss seeing my family and dog every day.

*Congratulations to these wonderful, young graduates.
We wish you nothing but succuss and happiness in your future.*

Heartfelt thanks ~ ~ ~

The family of Raymond Anderson would like to thank the staff at Coronach Health Center for the many years of care that Raymond received. Whether he was winning a pudding at bingo, arm wrestling or joking around with the staff, or enjoying his country music, we always knew he was being taken care of.

Thank you to Piche-Hawkins Funeral Services for providing us our final good-bye.

Elan, the words you spoke reflected our memories of Raymond perfectly.

Finally, thank you to the communities of Coronach and Big Beaver. Thank you for the many calls, cards, donations to the Health Center, food offerings and visits in our time of need. Thank you for the many years the residents of Coronach were there for Raymond. Whether it be giving him a slice of pie, pushing his scooter out of a ditch, directing him home or just ensuring he made it home after his outings,

Thank you.

Sincerely Kaye and Family

What is the summer solstice?

This year it is Tuesday, June 21

The 'longest' day of the year marks the middle of summer.

This is because the tilt of the Earth's axis is most aligned with the sun, providing us with the most daylight of the year.

When it ends, the nights will begin to close in as our planet rotates away from the sun. Solstice comes from the Latin words sol, meaning Sun and sistere, meaning to come to a stop or stand still. On the day of the June solstice, the Sun reaches its northernmost position, as seen from the Earth. At that moment, its zenith does not move north or south as during most other days of the year, but it stands still at the Tropic of Cancer. It then reverses its direction and starts moving south again.

Congrats to these 3 local ladies who have worked hard, perfected their craft and give us all inspiration on what can be achieved when you put your mind to it! Congrats Ladies!

Nicole Kirby

Congratulations to our 2022 Saddle Making Fellowship Recipient, Nicole Kirby.

Nicole Kirby is from Southern Saskatchewan, Canada not far from the Montana border. Nicole farms and ranches with her husband and children. She is kept busy with day to day ranchlife, working alongside her husband, as well as helping their children with online home schooling, hauling kids to ropings and high school rodeo, and of course, custom leatherwork.

With a love of horses and a creative heart, saddle making naturally caught her attention many years ago. Through the kindness of a local saddlemaker, she was introduced to the basics of leatherwork and saddlery while in her early twenties. A twenty year span in the nursing profession delayed some of her artistic pursuits but the draw of leatherworking and creating with her hands remained a constant. Rodeo awards, horse gear, ladies shoes and fashion items as well as figure carving and leather art kept her up late many a night. Nicole travelled, when able, for leather classes and loves teaching beginner leathercraft workshops, especially for kids.

Nicole's desire to transition into saddle making has never diminished and she feels extremely fortunate to have been selected as this year's fellowship recipient. The opportunity to learn proper saddle fit and construction with Art of the Cowgirl's 2022 Master Saddle Maker Karen Lamontagne is a dream come true. The prospect of connecting with other women already established in the western trades and in turn being able to pay it forward in the coming years will ensure our western traditions and spirit remain strong.

Nicole will be spending time with Karen to further her knowledge in saddle making. They will be presenting their work at our 2023 Art of the Cowgirl event in January in Queen Creek. We invite you to join us at our fifth annual event to see what they and our other recipients/masters have created together.

Danielle Reid Clavelle

Danielle Clavelle just finished her debut at the Canadian National Championships in St. Johns Newfoundland placing first and bronze. Danielle competed not once, but twice in two separate divisions, taking home a national squat record at 238kg and a total record at 550.5kg. The total is a sum of the 3 lifts performed in the event; squat, bench, and deadlift. Danielle vied for podium position in her second event with a close call for second place, she deadlifted her last lift to move from bronze to silver and had a very near miss at lockout. This win has opened up another World's spot for her on Team Canada and she hopes to take a spot on the team going to New Zealand in December.

Right after the competition ended Danielle decided to stay and explore and started on a 340km hiking path. She finished 200km in 8 days and can't wait to go back. She recommends enjoying an ocean side camp experience at Shoe Cove or Tinkers Point and having fries, gravy and dressing(stuffing) everywhere you go. Newfoundland reminded her of a bunch of small communities like her own except with an oceanside view and she will be happy to be home soon to see her family.

Emily Jepson

Emily was the recipient of the CIM-Bedford Canadian Young Mining Leaders award at a ceremony held in Vancouver in May. The Canadian Institute of Mining, Metallurgy and Petroleum is a national organization and the award is for exceptional achievement and potential of young Canadian mining leaders.

"Emily Jepson is Manager, Environment and Regulatory Affairs at Westmoreland Mining. She has sixteen years of experience working at a coal mine and has had a variety of responsibilities including regulatory reporting, environmental monitoring, and reclamation planning. In the most recent years, she has been focused on carbon policy regulations and compliance.

con't.....

Jepson grew up in a coal mining family in southern Saskatchewan and developed a passion for mining early in her career. She enjoys being part of the reclamation activities and day to day operations at site.

Jepson graduated with a degree in environmental systems engineering for the University of Regina and is a registered professional engineer with the Association of Professional Engineers and Geoscientists of Saskatchewan.

CONGRATS TO JANEL KORBO FOR WINNING MAY TRIVIA NITE - WATCH FOR UPCOMING TRIVIA NITE DATES

Late Night Swim

School is out for Summer! - June 28 - open until 11:00.
Everyone Welcome!! After 9:00 kids must be 10 and older to remain in the pool. Anyone 9 and under must have a parent/guardian IN the pool with them to stay. This is non-negotiable - no kids 8 1/2 yrs old can stay without an adult, no kids younger than 9 can stay if the parent is sitting on pool deck but not in the water. This is a fun event for everyone but also adds extra stress on guards. Rules have to be made and limits set in this situation to keep everyone safe. In the past people had to be 12 and older to even attend this event. In efforts to include more kids, the age limit has been lowered and these new rules have been put in place.
