PINK SHIRT DAY

FEBRUARY 22

By: Brandi Dahlman, PHCC

What is pink shirt day?

This is an anti-bullying initiative which started in 2009. Don't forget to wear your pink shirts on Feb. 22! This initiative is celebrated around the globe.

Bullying:

-physical, verbal, social/relational (excluding, spreading rumors), cyberbullying (using electronics to bully)

Bullying vs Harassment:

-similar because someone is getting hurt but different in that harassment is a form of discrimination

Discrimination:

-treating someone differently/poorly based on certain characteristics or differences (race, age, gender, ethnicity, religion, etc.)

Stats:

-1 in 5 kids are affected by bullying
-110+ countries participate
-Almost 500,000 shirts sold
-Almost 3 million dollars donated to anti-bullying programs throughout Canada

Please reach out for supports if needed! Check in with your children. Ask them about thoughts of suicide and teach them about bullying and what to do if they or someone else are being bullied.

And a Thank You from the community to Janel & Courtney for having the courage to start this new adventure 4 years ago.

Your ideas as a business owner not only showcased your business but helped others at the same time such as your shop local, give local campaign. You provided gifts for health center every Christmas, shoe sales, shopping nights for kids and husbands, and countless donations for events and fundraiser's in town. You listened to the community and brought in items that were requested and were always trying to bring in the popular pieces. We admire your hard work and effort that you put into trying to provide what the community was lacking. This small town, big store was a treasure in our town that will be missed.

Hart Electric would like to send a huge thank you to South Saskatchewan Ready and the town of Coronach for the grant of \$50,000 which enables us to purchase a new towable Genie Lift

Coronach New Horizons

Fog, fog and more fog but hasn't it given us some beautiful scenes the last week or so!!! Now it's looking like our weather is going to change again. But I can't help but feel that we are so much better off than some areas with snow, winds, rain and flooding. Lets count our blessings and pray that we don't have any of these hardships.

We held our Pot Luck Supper on January 22 at the Drop In. Not too many people ventured out but we sure had a good supper as usual.

The problem with a small town is there is lots going on and people just can't attend everything. Please don't ever say there is nothing to do in a small town!!! I'm a senior now, so can pick and choose, but back in the day I was one of those parents running to all my kids functions. Enjoy them while you can. You have all those memories to look back on.

Our next Pot Luck Supper at the Drop In is on Sunday February 19, 2023 at 5 PM. Plan on coming out and enjoying a great meal and warm friendship.

Bullying Stops Here

In 2007, Berwick Nova Scotia, two grade 12 students bought and distributed 50 pink shirts after a student at their school was bullied for wearing a pink shirt. With that act of kindness, Pink Shirt Day was born. In recognition of the Berwick event, Nova Scotia proclaimed the second Thursday of September "Stand Up Against Bullying Day." In 2008, British Columbia proclaimed February 27 to be the provincial anti-bullying day, and the movement has continued to grow. In 2012, the United Nations declared May 4 as Anti-Bullying Day, and the last Wednesday each February is now the national anti-bullying day across Canada. Many countries now recognize specific days for raising awareness about the prevention of bullying and promoting kindness and inclusion. In Canada, many students have heard the Pink Shirt Day message from kindergarten through to their high school graduation. The movement continues to grow in popularity.

WHAT IS HOAR FROST

Hoar frost is a type of feathery frost that forms as a result of specific climatic conditions. The word 'hoar' comes from old English and refers to the old age appearance of the frost: the way the ice crystals form makes it look like white hair or a beard.

How does hoar frost form? Ground frost forms when the air is still and cold, usually on clear winter nights. Water vapour in the air condenses on solid surfaces, and as the surface temperature drops below 0°C, ice crystals form. Hoar frost requires slightly different conditions. It forms when the water vapour in the air comes into contact with solid surfaces that are already below freezing point. Ice crystals form immediately, and the ice continues to grow as more water vapour is frozen. On a still night, it can grow well on tree branches, where the surface temperature is unlikely to rise above zero for several hours.

Help Make a Difference...Donate!

30 years and over \$266,00.00!!! Wow!

Think of how many Saskatchewan residents have received special needs equipment, to improve quality of life and independence; as well as access to life-saving medical treatment because of this annual tradition. This money goes to Kinsmen Foundation and then throughout the year, Saskatchewan people of all ages with mobility and/or cognitive challenges can apply to the Kinsmen Foundation for financial assistance. The resulting miracles are varied, but the goal is always the same - to have a direct, positive effect on each recipient's quality of life.

Because of Lawson and Gail's commitment, hard work and generosity this auction has continued on year after year. Nowadays it is more common for groups to disengage and traditions to get forgotten or lose focus. And many things got lost in the shuffle of Covid but Lawson & Gail have marched on and continued to raise money year after year.

I'd like this year to be the year to really thank Lawson & Gail for all of their commitment to this worthwhile cause. They have never wavered in their support for our Saskatchewan residents that need help. Their kindness and dedication has helped raise a quarter of a million dollars. So on behalf of Saskatchewan residents and of our small southern communities we offer a heartfelt thank you to Lawson and Gail for showing us what true community spirit looks like!

What a wonderful community to live in! What a fast miracle!

In November an appeal went out to interested parties in Coronach and area to help replace the aging pianos at the Coronach Health Centre and South Winds Manor. The aging pianos are no longer serviceable.

Thanks to the generous support of many organizations and individuals the pianos have been replaced with “state of the art” electric pianos. The new pianos produce excellent sound and so not require expensive annual tuning. We were able to present them just in time for Christmas!

The response was nothing short of amazing! The RM of Hart Butte and the Hart Butte Community Farms each chose to sponsor one piano. With donations from others the pianos were upgraded as well as purchasing an iPad for each (to record music that the piano will replay at any time) headphones for the hearing impaired were purchased and an adjustable chair suitable for seniors has been ordered.

There is a 'can' in
CANCER
 because we CAN beat it!

More than one third of cancer cases can be prevented. Another third can be cured if detected early and treated properly. By implementing resource-appropriate strategies on prevention, early detection and treatment, we can save millions of lives every year.

Progress

Today, we know more about cancer than ever before. Through investing in research and innovation, we have witnessed extraordinary breakthroughs in medicine, diagnostics, and scientific knowledge. The more we know, the more progress we can make in reducing risk factors, increasing prevention and improving cancer diagnosis, prevention, treatment, and care.

Impact

In recent years, the United Nations, the World Health Organization and other UN agencies have recognised the urgent need for a global commitment. When leaders speak up and take action we give ourselves a chance to make history and to move towards a world without cancer.

Change

Through raising the public and political literacy and understanding around cancer, we reduce fear, increase understanding, dispel myths and misconceptions, and change behaviours and attitudes.

Clara - February 23, 1930

Favorite food - Roast chicken with all the fixings

Favorite kind of cake - angel food cake with strawberries

Favorite birthday memory - Clara always enjoyed her 4 daughters and 1 son with our dad putting on a very special birthday dinner. We would always invite friends to join the celebration.

Clara loved community events and leadership. She was president of the Pangman school board and Aglow, an interdominational ladies organization and the ladies hospital auxiliary. One of the Auxiliary projects was to raise money for the Deep South Personal Care Home to open. Clara asked our Coronach Community Choir to come to Pangman to sing for a dinner to raise money for the Care home. They had a large crowd that bought tickets for the dinner and entertainment. That was one way mom raised money. Many years later my mom and dad moved into the care home. Since my dad passed in 2018 she loves living at the CHC nursing home in Coronach. Her favorite hobby is singing for everyone there.

Let us be encouraged that- "For God so love the world that he sent his one and only son, and whoever believes in him shall not perish but have everlasting life. God did not send his Son into the world to condemn it, but to save it. There is no judgement awaiting those who trust him. John 3:16-18 Jesus changes peoples lives through love.
