# Math Pathways Program

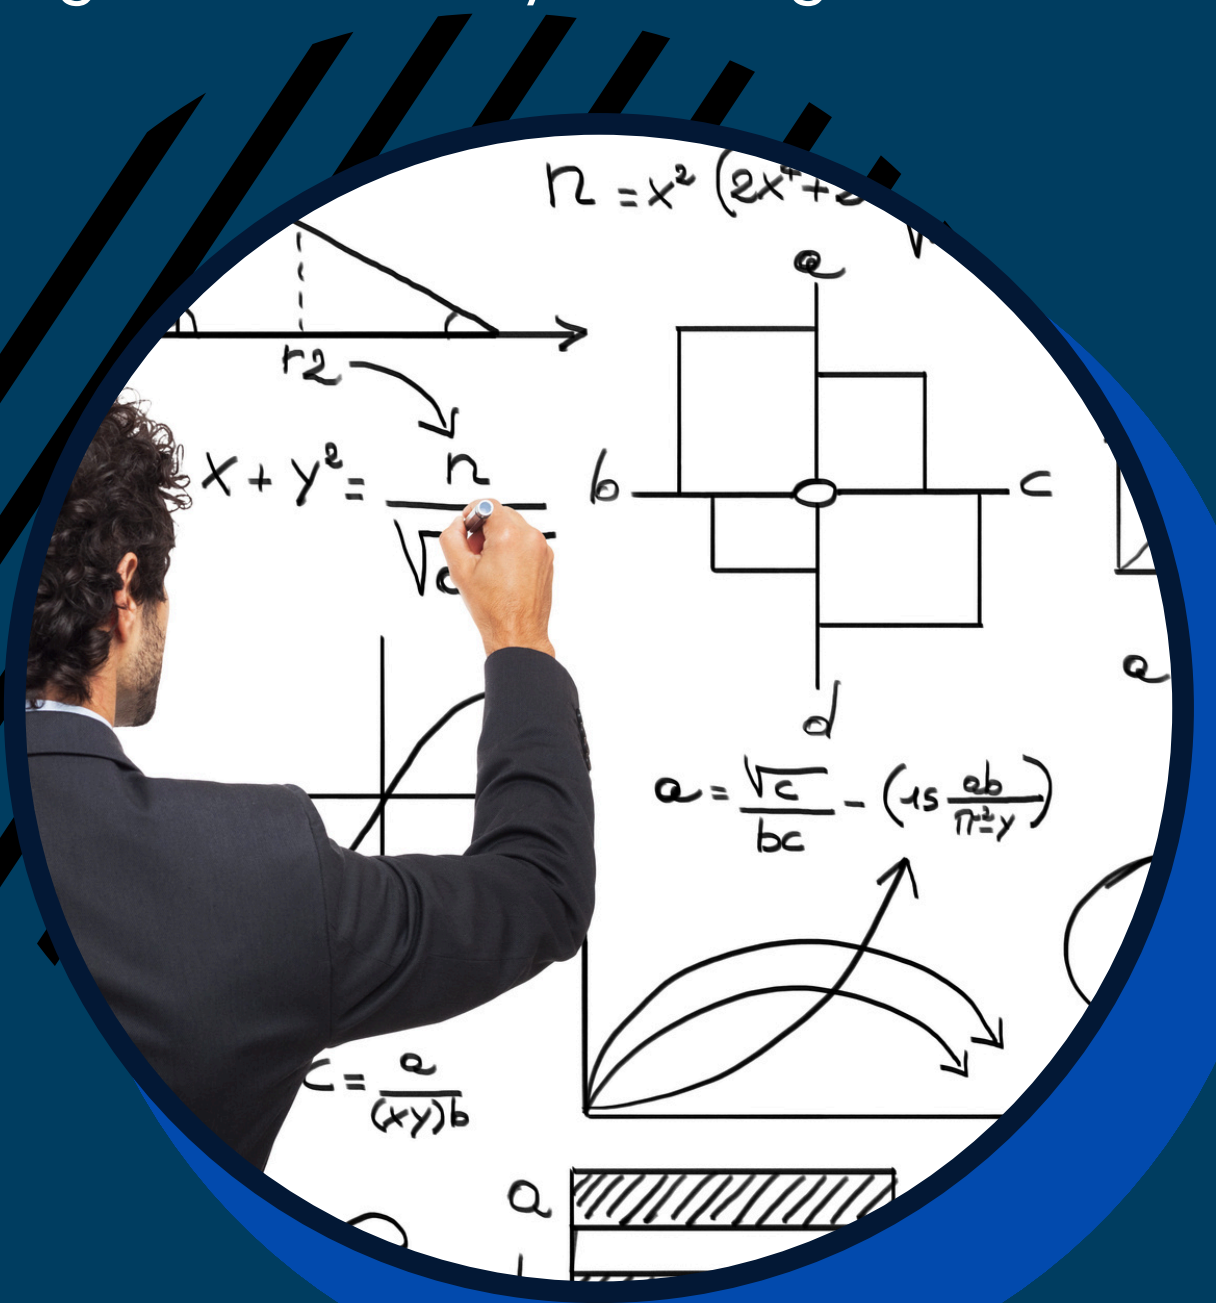

STEM Canada Summer MATH Pathways Program: FREE OF CHARGE

STEM Canada will provide a FREE virtual math preparation programming to promote high-school readiness to grade 8 students across Canada through the STEM Immersion Math Pathways Program. This virtual math program is available during the summer to help students navigate the curriculum of the new grade 9 high school math program.

Additional Summer STEM Immersion Programming Available July 14 - August 23, 2024.

## Built for Student Success

This virtual math preparation program will be presented in 2 parts to graduating grade 8 students entering grade 9 in the fall. The program will run part 1 in a 2-week session for 2 hours per day in the morning beginning on July 15 - 19 and July 22-26. Part 2 will run in a 2-week session for 2 hours per day in the morning beginning August 12 - 16 and August 19-23, 2024. The program content run the grade 9 math curriculum and its concepts. Textbooks and resources will be provided.
