Roof Replacement Tender

The Town of Coronach is now accepting tenders for the roof replacement at the Town Water Treatment Plant located at PT SW-11-02-27-W2 within the Town of Coronach.

The quote would have to include:

1. Supply and installation of 19 new pre-engineered wood trusses with a 4/12 slope, complete with 1x4 strapping under metal roofing, 26 ga. snap lock metal roof cladding, and 29 ga. tough rib metal cladding at gable ends and 2 gable vents. There will also need to be blow-in or batt insulation added in the roof.
2. Mechanical & Electrical engineering is not to be included in pricing.
3. Building Permit obtained by the Town of Coronach.
4. Please state the cost for structural engineering as a separate cost line item.
5. Contractor is to place all waste into a Loraas roll off bin supplied from the Town of Coronach.
6. All materials must be sorted in accordance with Town of Coronach Transfer Site rules;
7. Contractor is responsible to ensure all utilities (i.e. Gas, Power, Telephone, Water, Sewer) are off before proceeding with the roof upgrade;
8. Contractor must show proof of WCB and adhere to OH&S laws.
9. Contractor is to provide the Town with a copy of their liability insurance prior to being awarded the job;
10. Project must be completed by September 30, 2026; however, sooner rather than latter is preferred.

Highest or any tender not necessarily accepted. Please state the price without GST or PST.

Please submit a written quote to the Town of Coronach by May 8, 2026 at 4:30p.m. and mark "Roof Replacement Tender." Mail or email tenders are accepted if they arrive by the deadline. Late tenders will not be considered.
